Pebble+ navigation basics in V5

If you are new to Pebble+ V5 the following navigation basics will help you to find your way around.

PebblePad Banner

The PebblePad banner is available wherever you are in Pebble+ and allows easy access to some important navigation tools.

Burger menu

So called because it looks like a burger.

Opens as a side menu with links to:

- Asset store
- Resource store
- Upload a file
- Start working on...
  - Template and workbooks
- Get creative
  - Portfolios and pages
- Learning centre
- Additional settings
  - Depending upon permissions these might include some or all of External Services, Administration, Temporary access, PebblePad Community, Free Alumni Account, and Help Desk
PebblePad logo
Returns you to the home page

Pebble+ logo
Returns you to the home page

ATLAS logo
Takes you to your ATLAS dashboard

Flourish logo
Takes you to your Flourish dashboard (if your organisation is using Flourish)

Asset search
Opens a search tool in the sidebar where you can do a keyword search for assets, resources, and uploaded files

Pebble+ navigation basics in V5
History
Opens a list of the things you have been working on recently so that you can easily select and return to any one of these

Log out
Log out of PebblePad – especially important if you are working on a computer that is likely to be used by others

Home page
When you first login to PebblePad you will arrive at the home page, which looks something like this...
Each block takes you to a different Pebble+ feature and this can be a useful place to come back to if you are ever unsure about where to find something.

The Profile block enables you to add a photo to your account. Simply click on the image space and your side store will open on the right, displaying just your uploaded images. If you do not yet have a suitable image you can click the ‘Upload’ button to source one from your computer.

Clicking on ‘Assets’ or ‘Resources’ will take you to your Asset store or Resource store.

You last worked on shows the last item you saved and you can return directly to this by clicking on it. Select ‘View your history’ to see a full list of items you have worked on recently.

Select ‘Get creative’ to go to the various Asset builders – Portfolios, Pages, Blogs, Activity logs, and Collections.

‘What’s Happening?’ takes you to a timeline of things that you need to know and things that you need to do. These might include information about shares you have received, comments or feedback left on your work, or important deadlines.
‘Work on...’ gives you easy access to resources your teachers have made available for you (‘Custom resources’) or ‘Your assets’ that you have already started and need to continue to develop.

Go to ‘Custom resources’ to start NEW templates and workbooks or go to ‘Your assets’ to continue working on things you have already begun.

The ‘Learning Centre’ contain a series of short videos to introduce you to the key features and tools of Pebble+ and more detailed written help about key activities that you are likely to engage in.

We encourage you to take the time to look through these resources as they might save you time in the long run.
Select ‘Upload New’ to upload any type of digital file from your device to your Pebble+ Asset store.

**Top tip**

Throughout Pebble+ look for the help icon. Clicking on this will open a panel that contains a series of short animations to provide you with more information about the feature or tool you are working in.
